On Site Service

Midlantic Machinery's Comprehensive Preventive Maintenance Program

- All brands, all models
- Reduce downtime, increase profits
- Midlantic's technicians anticipate problems and perform repairs before costly equipment failures

What

Routine maintenance automatically

- In-depth inspections
- Comprehensive reports with service recommendations

Where

At your shop location, on the job site or in our service center

When

Monday through Friday

Available weekends and evenings

Who

Midlantic Machinery's factory trained technicians

Arrive on-site with state-of-the-art service trucks for efficient maintenance, diagnosis and repair

Why

- Reduce maintenance headaches and allows you to focus on production
- Technicians use manufacturers' manuals and service interval recommendations to inspect and maintain your equipment properly
- Assure compliance with environmental regulations and industry standards
- Eliminate the expense of servicing your own equipment
- Documented oil analyses provide warranty assurance

How

Sign an On Site Service Agreement

You can schedule the service at your convenience or we can monitor your machine usage and remind you when service is recommended. Cancel the agreement at any time without penalty.

Contracts for GPS monitoring are available for all makes and models.

Call the location nearest you today, or contact your PSSR.
